

Technical Bulletin - Evaluating Cladding Material Costs

Price Comparisons for Common Siding Materials (per sq ft)

This pricing comparison chart should help you establish some "ball park estimates" for siding materials to help you develop your building materials budget for your project.

This pricing comparison chart includes materials and labor to install.

This pricing chart was prepared by an independent architectural firm as part of a product and evaluation process. Timber Holdings is not responsible for its accuracy. All design professionals are responsible for their own product evaluations.

It is up to the viewer to determine the value of the presented information.

This pricing comparison chart was received by Timber Holdings on 6/25/17.
